

UTA K-12 School Program Agreement

We appreciate your interest in UTA's School Program. The following agreement is required of all participants in the UTA K-12 School Program. We are happy to offer this service and to partner with you and your students to maintain the integrity of our fare inspection. Please read the following, and sign and date the form to acknowledge your understanding and agreement to comply with the guidelines. Thank you so much for riding with your students!

As part of this program, we are proud to offer you complimentary fare for a field trip with your students. We encourage all field trips be done in conjunction with an educational presentation, especially for elementary school students. UTA will send a representative to provide a brief presentation demonstrating how the system works, why people ride UTA and public transportation, and some important safety recommendations for riders. The presentation is available through UTA's Community Engagement Department.

You are receiving complimentary fare for a school field trip to educate and inspire confidence in young riders of the UTA system. This complimentary fare is good for one group trip, including students, teacher(s), and chaperone(s). The fare is available via the UTA GoRide app. Download the app and use the individual code that has been provided to you to receive your class's passes. Each teacher attending the field trip with their class will be required to have a code. Fare inspectors will check the number of students and chaperones against each GoRide ticket. The fare is only valid for your class, and will expire after the date of the trip. You are eligible for one field trip per class per year. If an alternative format for fare is required, please request this by contacting the Community Engagement Department.

The use of the GoRide code for anything other than a school field trip is strictly prohibited. The fare is not transferable. If there are other teachers in your school interested in doing a field trip for their class, please direct them to the Community Engagement Department at UTA so we may issue them unique fare for their trip.

If you are unable to use the fare on the date provided, please contact the Community Engagement Department to request new fare.

I understand that group fare is a valuable UTA resource and I agree to use in accordance with the guidelines above.
